Web Development

ABOUT ME

I am a skilled Cyber Security Researcher with over [3] years of experience in [specific technologies or programming languages, e.g., C, Python, PHP, Wireshark, Metasploit , etc…..]. I excel in understanding and developing scalable loop holes to crack, with a strong focus on problem-solving and innovation. Passionate about technology, I continuously update my skills to stay current with industry trends.

PROJECTS

On 2023
directory brute-force tool using python
Link:Brute-force tool
